The correct Figure is provided here.

**Figure 5. The region-centric approach increases the common findings between the 3 datasets.** (A) Intersection between the results provided by Hannum et al. and Heyn et al. (left panel) and between the results of the region-centric approach on the two datasets. (B) Intersection between a progressively increasing number of top ranking features (BOPs for the region-centric analysis, CpG probes for the single-probe analysis) in the three datasets.
